Summer Camp 16,17,18, September 2026 – 🏖️Thessaloniki Greece

🚫 Stop "Talking" Sustainability. 🛠️ Start BUILDING It.
♻️ Tired of "greenwashing"? 😴 Bored of endless talks & surveys? 📉 Want REAL impact?🧭

🏛️ We are looking for Visionary Minds to join a creative challenge in Thessaloniki, Greece

☀️ **This is a unique experiment: The GreenHack.** 🌱💻

🕵️♂️ THE MISSION: "Unveil the Invisible"

🏭The digital world is power-hungry. Did you know that 🍿 Streaming 1 Movie = ⚡ Running a microwave for 1 hour, or that 📱 90% of your phone's carbon comes from *building* it, not using it!!!

Did you know driving 10 km in an electric car 🚗 uses ~2 kWh, and this is the same energy wasted by devices doing NOTHING: e.g.📺 Cable Box (idle): ~4 days, 🎮 Game Console (standby): ~1 week, 📶 Wi-Fi Router (always on): ~10 days, 📺 Smart TV: ~1 month, 🔌 Old Phone Charger: ~1 year!

🛑 **Lesson learned: Unplug the idle. Drive the savings.**
🎨 **We need YOUR creativity to redesign the system!**

🚀 WHY YOU SHOULD CARE

🧱 **Upgrade Your Learning:** We will use methodologies like Living Labs, Serious Play and Rapid Prototyping to model the future with our hands, stepping out of the classroom and going from theory to action!
🔄 **Real Innovation:** Apply Circular Economy & Systems Thinking in a high-speed GreenHack.
🤝 **The "Anti-Networking" Network:** Forget stiff handshakes. We build *real* social capital over Greek dinners 🥙 and intense collaboration.
💼 **Career Boost:** Pitch your ideas to industry experts, such as Green Tech Innovators, E-Waste Recycling Managers, and Sustainable Software Developers who are actively looking for the next generation of green leaders.
📜 **Certificate:** Earn a Certificate of Attendance
🌍**European Visibility:** The best green-tech prototypes and 60-second video pitches recorded at the camp will be featured in the official EcoDigify MOOC, reaching educators and students across all of Europe!

🧠 WHO WE NEED

💥 We need the Artists of Innovation with passion, directness, and fresh ideas to disrupt the status quo, from disciplines in fields such as 💻 **ICT Studies,** 💼 **Business and Management** and 🌿 **Transdisciplinary fields such as Environmental Sciences.**
🌐 We encourage students from different faculties to apply.

📅 THE 3-DAY SCHEDULE OVERVIEW

DAY 1: ⚡ **"Unveil the Invisible"**
Field Audits, e-waste discover (dig around and investigate).

DAY 2: 🛠️ **"Build the Future"**
Building Minimum Viable Green Products (mock-ups, prototyping).

DAY 3: 🎤 **"Impact and Scaling"**
Pitching to Experts. Validation of your ideas.

🏃 HURRY! SEATS ARE LIMITED!

⚠️**Don't miss your chance to represent [Italy]!**
👉 **Apply Now & Make your mark on the European Digital Transition!**

⏳ **Deadline: [10th June, 2026]**
💶 **Fully Funded: Travel & Stay 100% covered by the EcoDigify project, financed by the European Project 024-1-SE01-KA220-HED-000250071.**

SUMMER CAMP DETAILS

Aligned with EU Target of a strategic pivot towards a "Twin Transition" (i.e. the simultaneous pursuit of Digital Transformation and environmental sustainability) the EcoDigify Goal is to integrate the principles of Sustainable Digitalization (SD) into university curricula. In this context, the Summer Camp aims to pilot the "Sustainable Digital Transformation Academy" resources and produce measurable green-tech prototypes. Our work won't just sit on a shelf. The best prototypes will be featured in the EcoDigify MOOC and shared with universities across Europe.

FULL CALENDAR PER DAY

DAY 1: UNVEIL THE INVISIBLE

Theme: Break the ice, break the silos.

09:00 – 10:00	Concepts and Teams
ACTIONS	**GOALS**
- Introduce ourselves. - Short introduction to Digital Sustainability basic concepts. - Creation of Teams.	- Teams formed. - Concepts explained. - Silos destroyed.

10:00 – 12:30	The Digital Collage (Serious Play)
ACTIONS	**GOALS**
- A high-speed card game visualizing the "power hungry" status of tech. - Map the lifecycle from mining to e-waste.	- Visualizing the "Wicked Problem" you are about to solve.

12:30 – 13:30	Lunch
ACTIONS	**GOALS**
- Greek Lunch	- Fuel Up!

13:30 – 15:00	Field Mission: "e-waste hunting and discovery"
ACTIONS	**GOALS**
- Get out of the room. We visit a server room or e-waste recycling point. - Use audit apps to find / document energy leaks.	- Find one specific problem to fix. (e.g., "This server rack wastes heat," "These phones are discarded too soon").

15:00 – 15:30	Target Lock
ACTIONS	**GOALS**

- Synthesize your findings into a single "Problem Statement."	- Create one clear mission for tomorrow.

DAY 2: BUILD THE FUTURE

Theme: Less thinking, more making. The "GreenHack" Sprint.

09:00 – 10:30	LEGO Serious Play (Blueprint Phase)
ACTIONS	**GOALS**
- Don't draw it, build it. - Use LEGOs to model your solution. - Metaphors allowed, but the mechanics must work.	- A physical 3D model of your concept.

10:30 – 13:00	The GreenHack: Sprint 1
ACTIONS	**GOALS**
- Teams work individually to -- Start wireframing/ drafting a pictorial flowchart of the technical solution -- Draft the circular business model canvas. -- Run a simple version of a LCA (Life Cycle Assessment).	- Bear the fruits of the interdisciplinary cooperation per team!

13:00 – 14:00	Working lunch with mentors
ACTIONS	**GOALS**
- Eat with experts. - Show your models.	- Get instant feedback

14:00 – 15:30	The GreenHack: Sprint 2 (Finalize)
ACTIONS	**GOALS**
- Assemble the MVGP (Minimum Viable Green Product). It doesn't have to be a perfect final product; it has to be a demonstrable mock-up.	- Find one specific problem and fix it. (e.g., "This server rack wastes heat," "These phones are discarded too soon").

15:30 – 16:00	Speed Dating (Brutal Feedback)
ACTIONS	**GOALS**
- Rotate tables. - 3 minutes to show your mock-up to other teams.	- Red/Green card feedback. - Fix the holes before the FINAL PITCH tomorrow!

DAY 3: IMPACT & SCALING

Theme: Prove it works. Sell it. Celebrate.

09:00 – 10:00	The Impact Calculator
ACTIONS	**GOALS**
- Gamified spreadsheet session. - How much CO2 does your solution save? - How much ….	- A hard number. (e.g., "We save 50 tons of CO2/year").

10:00 – 12:30	The sales pitch
ACTIONS	**GOALS**
- The Main Event! - Perform a 5-minute pitch per team to the Jury (Industry + Academic experts). - Jury questions all goals	- Innovation, Impact, & Feasibility are the main criteria for your evaluation.

12:30 – 13:00	The Content Booth
ACTIONS	**GOALS**
- Recording of you presenting your solution. - Use a 60-second explanation video of your project (Instagram Reel style) for the MOOC.	- Empirical evidence for the project repository.

13:00 – 14:00	Awards & Certificates, Good Bye Meze
ACTIONS	**GOALS**
-Winners announced ("Most Scalable," "Best Tech," "Highest Impact"). - Certificates of Attendance distributed. - Every discipline and every Team involved in the "GreenHack" has a chance to shine.	- Preventing the "post-camp drop-off" in motivation, a Personal Action Plan is “signed”: What will you do in the next days, based on what you learnt in the summer camp?

14:00 – 15:00	Evaluation activities
ACTIONS	**GOALS**
- Coffee and Evaluation time. - Photos, roundtable talks.	- Gather comments and feedback on the summer camp.

15:00	Camp Dismissed
ACTIONS	**GOALS**
- End of Summer Camp, Back to home …	- Keep in touch, spread the ideas.
